

Hi! This is Connie Walker from the Moniteau County Library

The library will be closed on Monday, February 20th, to observe President's day.

The Winter Book Sale has been a big hit. New books are added to the sale daily as books are sold, so there's always something new in the sale. This sale features adult nonfiction and paperback books, but fiction is available as well.

We've had a bit of good news about the library's server...once techs from Smallwood Technologies have completed the updates to the Windows Operating system, which was badly damaged; they will rebuild the domain and then reinstall the automation system. The good news is that they will be able to restore the automation software to December 28th, 2016. This means they were able to keep our cataloging and new patron records and check-out statistics for 362 days of 2016. Therefore, the only records that will need to be re-entered are from Dec. 28th to the present.

There seems to be a new trend with after school kids that may be due to our computers not being available for a couple of weeks. Grade school and middle school kids have been bringing in board games to play, and groups of boys are bringing in albums of ball cards to trade. The boys congregate on the floor in the kids department and the kids play monopoly on big tables. We also have several students that come to do their homework daily. I think it's great that kids want to hang-out at the library with their friends. If you are on Facebook...you can see photos of these activities on the Moniteau County Library's page. The great thing is, even with our computers back online...they are continuing to do these other activities!

This is Connie Walker from the Moniteau County Library Join me every Friday afternoon @ 3:45 and on Saturday mornings, right here on KRLI 1420 a.m. to hear about the services and activities taking place at your library.
